

# PharmacyPro Update News, March 2009

Proudly Supporting Australian Pharmacy for 25 Years

Used Worldwide in Over 3000 Sites

## Linking / Merging Account in Point-of-Sale

There are two new options that allow you to change the way the account name lookup works in the New Sale screen:

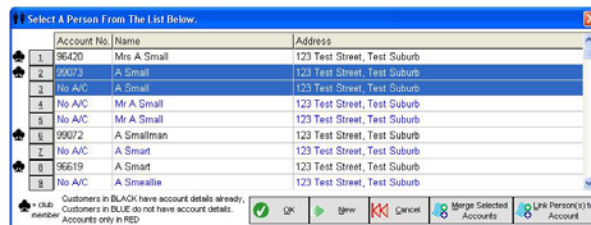

### Option 1: 'Group Person Lookup by Account Number'

If this option is on, a person that is linked to an account will now show on the customer/account search once in black. If this option is not on, it will show as two separate lines: as a person (black) and as an account (red).

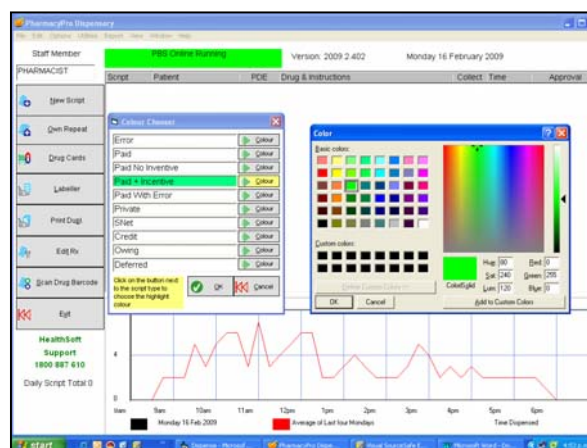

### Option 2: 'Show Merge / Link Buttons on Person Lookup Screen'

With this option on you will see a new button called 'Link Person(s) to Account' and 'Merge Selected Accounts'. If you want to link an existing person to an account, highlight the person and the account and click this button. If you want to merge duplicate accounts highlight the accounts to merge and click the "Merge Selected Accounts" button. This saves you going to the Debtors Utility to do this linking.

## Colour Choice in Dispense

From the *PharmacyPro* Start Menu, open Dispense. Select Options from the top menu bar, then PharmacyPro Options, PBS Online Colour Highlight Chooser. The Colour Chooser will open - from here you can select your preferred colour for each status.
