

PharmacyPro Update News, October 2009

Proudly Supporting Australian Pharmacy for 25 Years

Used Worldwide in Over 3000 Sites

Newsletter

After the monthly update is run, a Staff Room copy of the Newsletter will print. Our newsletter often contains information such as new features or changes that your staff need to know. Please circulate this copy to your staff to keep them informed.

Claims

There is now an 'Export' option in the Claims Log screen. You can export this to create your own reports in Microsoft Excel or Access.

Patient History Report

You can select a specific period to report on. In Dispense, select the patient, then go to Reports, History Reports and specify dates. If you want to reselect another date period, select the dates and click on reload.

Did You Know?

PBS Incentive Payment Report

This can be viewed from Claims, CTS/PBS Online Claims. The incentive payment report will list all the scripts with incentive payments in the selected Claim Period.

End Of Day Report

To view an EOD Report for a period, go to EOD, select 'Report for a Period', then select the date range. Select the 'Graph' tab if you would like to view it in a graphical format.

ePrescriptions

The number of *PharmacyPro* sites using the Medisecure ePrescription system is growing quickly. Customers find the process quick and easy to use. It saves a significant amount of time on data entry as most of the script information is imported automatically.

Med + Info Update

If you subscribe to Med + Info, your Med + Info updates will now run after your *PharmacyPro* update. You will no longer receive a Med + Info update CD each month.

Supplier Update

If you would like us to add the stock file of a particular supplier, please contact us with the supplier details. The following files have been updated in *PharmacyPro* this month:

Almay
Amcal Face and Beauty
Amcal Sept 28
Apex
Bed Buddy
Gibson
Revlon Cosmetics
Revlon Fragrances
Revlon Promotion
Rossan
Searcy
SSS Sept 28

PharmacyPro Business Reports ... *your Tools for Business Success*

Report: **Top/Worst Items**

Recommended Frequency: **2 to 3 Monthly**

Importance: **HIGH**

This report has a number of functions. You can use it to highlight high profit products and also the worst performers.

The inbuilt forecasting in *PharmacyPro* means you will purposefully have more stockholding of better sellers and less of slower sellers. This is one of the major benefits of using *PharmacyPro* – so with your stock levels correct, always use the automatic ordering.

How to use the Top/Worst Items Report in your store:

- 1) Print off at least the top 50 items by profit throughout your shop and make sure the products are clearly visible in their relevant category. Also ensure you are buying these products at the best rate possible.
- 2) Rerun this report, but select the Product Group option, and select your stronger groups for closer analysis.

To find this Report: From the *PharmacyPro* Start Menu go to Reports, Stock Reports, Top/Worst Items

HealthSoft Australia Limited
P O Box 7121, St Kilda Road, Melbourne, VIC 8004
Level 1, 61-63 Wellington Street, St Kilda, Melbourne, VIC 3182
