

Proudly Supporting Australian Pharmacy for 25 Years

Used Worldwide in Over 3000 Sites

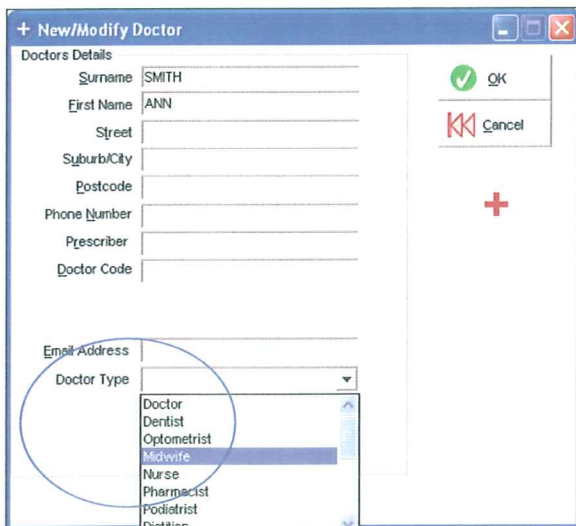

Welcome to New Users

A very warm welcome to this month's new PharmacyPro customers.

New to PharmacyPro this Month

Doctor Utility

In preparation for Nurse Prescribing on 1 November, 'Midwife' and 'Nurse', have been added to the 'Doctor Type' drop down box.

Dispensary

An 'info' button is available next to the patient category boxes on the Script and Patient screens. Click on this for an explanation of the various categories.

Stock List and Value Report

The SOH column has been moved next to the trade name to make it easier to read. Other columns displayed include List Cost, Real Cost, List Cost Markup% and Real Cost Markup%. The extended cost will be based on real or average or list depending on the selection. Labels and totals now make it clear which cost price the totals are based on.

Drop Down List

In the Supplier, Product Group and Product Class drop down boxes, enter the first letter of the word to quickly access it.

CompoundPro Formulation Screen

- New option to "Print % Column on Formulation Sheet" - this will print the % column. The column is called "Unit VW%" which stands for Unit Volume/Weight %.

To switch on, from the CompoundPro screen click the "Options - Print % Column on Formulation Sheet" menu.

- New option to "Print Devices on Formulation Sheet".

To switch on, from the CompoundPro screen click the "Options - Print Devices on Formulation Sheet" menu.

- New option to change the column headers from "Strength" and "Qty" to "Strength mg/ul" and "Qty g/ml".

To switch on, from the CompoundPro screen click the "Options - Print New Column Headers on Formulation Sheet (Strength mg/ul, Qty g/ml)" menu.

- New sorting of the formulation template and form drop down boxes so that the user can type in the first letters of the formulation or form name and it will go to that entry (eg. type in PROG and it will drill down to the formulation templates starting with PROG).
- Added option to always default to custom pricing.

To switch on, from the *CompoundPro* screen click the "Options - Default to "Use Custom Pricing"" menu.

Changes to the *CompoundPro* Utility

To access this utility, from the PharmacyPro Start Menu select Tools, CompoundPro, CompoundPro Utility.

The list of formulation templates are now in alphabetical order.
